Information System  
Engineering student at the  
Universidad  
Centroamericana José  
Simeón Cañas (UCA).  
Standing out as academic  
excellence to this day. He  
always looks for ways to  
help others, which led him  
to work on some open-  
source projects, either  
with code or issue reports,  
for the sole purpose of  
learning.

## SKILLS

- › CI/CD
  - › Web development
  - › Desktop development
  - › Mobile development
  - › Design
  - › Leadership
  - › Creativity
- 

## PROFILE

I'm a curious, committed, persevering and comprehensible person that is always looking for the understanding of things, the learning, the teaching, and being able to help other people as long as it is possible.

## EXPERIENCE

### Web Development Intern, OOQIA - 2023-Present

Worked as an intern in OOQIA, helping with some Wordpress sites development for international clients, as well as the rework for OOQIA's website creating Vue components, devising new development strategies and its implementation with Azure servers.

### Project manager of an ASP.NET web app, InfoLabs - 2022-2023

Management and develop of an ASP.NET Web Forms application that aims to help with the PC management in the laboratories at the Universidad Centroamericana (UCA).

### Linux project with LightDM, Web-Greeter - 2021-Present

Customization, fixing and development of an abandoned project made by Antergos team, that allows to be executed on Ubuntu 20.04 and earlier. Most of the code was rewritten to be optimized and to add better functionality with Qt5 for Python3, C additions and web technologies.

## EDUCATION

### › Universidad Centroamericana José Simeón Cañas (UCA); San Salvador, El Salvador. - 2024-Present

Informatics Engineering.

### › Universidad Centroamericana (UCA); Managua, Nicaragua. - 2021-2023

Information Systems Engineering.

### › San Francisco Xavier School, Fe y Alegría; Ciudad Sandino, Managua, Nicaragua. - 2016-2020

Bachelor of Science and Letters.

## TOOLS

### Languages

- › C/C++ and C#
- › Java and Kotlin
